

## **GREATER LAPORTE CHAMBER *of* COMMERCE**

### **Central Time Zone**

**Issue:** The State of Indiana has participated in a year long, state wide debate of whether the State of Indiana should observe day light savings time or non day light savings time and Central Time Zone or Eastern Time Zone to position the State of Indiana in a stronger economic position. New legislation in 2006 now proposes to include the whole State of Indiana in the Central Time Zone.

**Position:** The Greater LaPorte Chamber of Commerce has supported day light savings time and that LaPorte and St. Joseph County be located in the Central Time Zone, and therefore supports legislation that would position the whole State of Indiana in the Central Time Zone.

**Endorsed:** 12/09/05 Governmental Affairs Committee
