

GREATER LAPORTE CHAMBER *of* COMMERCE

Indiana Septic Tank Rules

Issue: The Indiana State Department of Health is proposing new septic rules for the State of Indiana. These proposed rules would cost the residents of LaPorte County up to \$2,000 annually to maintain the septic system as mandated by these new rules. The ISDH is required to consider technical and economic impact of rules on the area and has not done so.

Position: The Chamber's Governmental Affairs and Executive Committees is against the adoption of the proposed rules without a technical and economical impact assessment by the Indiana State Department of Health.

Endorsed: 5/20/03 Governmental Affairs Committee
